Profile

Investment banking professional with 4.5+ years of experience supporting M&A and capital markets transactions through company screening, financial research, comparable company analysis, transaction comparables, valuation support, and company profiles. Proficient in Capital IQ, PitchBook, FactSet, and Excel, with a proven ability to deliver high-quality analytical insights for global investment banking clients.

Education

Zakir Husain College, Delhi University <i>Bachelor of Commerce</i> CGPA: 8.03/10	2015–2018 Delhi
Birla Institute of Management Technology <i>Post Graduate Diploma in Management (Finance)</i> CGPA: 7.64/10	2020–2022 Greater Noida, Uttar Pradesh

Experience

Acuity Knowledge Partners <i>Senior Associate (Investment Banking Division)</i>	Nov 2021 – Present Gurgaon, Haryana
---	--

Role Summary: Responsible for managing work requests, meeting client deadlines, and providing secondary research for investment banking clients.

- Conducted buy-side and sell-side transaction research across 10+ industries to evaluate acquisition targets and potential acquirers.
- Built **trading comparable and transaction comparable** analyses to support valuation, M&A, and investment banking engagements.
- Identified and benchmarked key market players based on financial performance, business models, and product/service offerings.
- Developed annotation reports, valuation multiples, and historical share price analyses using **S&P Capital IQ**.
- Leveraged PitchBook, Capital IQ, and FactSet to **screen acquisition targets and private equity investment opportunities** through comprehensive market and company analysis.
- Analyzed financial statements, SEC filings (10-K, 10-Q, 8-K), earnings releases, and investor presentations to evaluate company performance and investment potential.
- Performed secondary research on industries, market trends, and competitive landscapes to deliver actionable insights for global investment banking clients.
- Prepared client-ready pitch books, presentations, and executive summaries by synthesizing complex financial and market data into concise, actionable recommendations.
- Managed quarterly updates for **20+ sector newsletters** by analyzing public comparables, updating valuation multiples and share price performance, tracking M&A transactions, and summarizing key industry developments.

IFinancial Analyst Consulting and Technology (Internship) <i>Financial Analyst Intern</i>	May 2021 – June 2021
---	----------------------

Role Summary: Responsible for financial statement spreading, secondary research, and ratio analysis.

- Populated and validated financial models by extracting and organizing data from annual reports.
- Executed ratio analysis to evaluate companies' financial performance, operational efficiency, and profitability for client engagements.
- Carried out secondary research on market size, industry trends, growth drivers, and competitive landscapes to support investment and business analysis.
