Education

Indian Institute of Technology (Indian School of Mines), Dhanbad

May 2026

Bachelor of Technology in Electronics and Communication Engineering

Dhanbad, Jharkhand

- **CGPA:** 6.53 / 10.00 | **Relevant Coursework:** Data Structures & Algorithms, Probability & Statistics, Operations Research, Principles of Economics, Database Management, Foundations of Managements and Organizational Behavior, Introduction to Finance

Experience

Bluestock

January 2026 – March 2026

Data Analyst Intern

Remote

- Traded **Futures & Options**, commodities, and forex using **technical, quantitative, and fundamental analysis**.
- Designed and executed **options strategies** including **straddles, strangles, and spreads** based on volatility analysis.

Vector Consulting Group

May 2025 – July 2025

Software Developer Intern

Mumbai, Maharashtra

- Built **RESTful APIs** using **Python** and **Django REST Framework (DRF)** for a scalable user profile system.
- Optimized **PostgreSQL queries**, reducing **API response time by 15%**.
- Wrote **unit and integration tests** with **PyTest**, achieving **90% code coverage**.

Projects

Sales Analysis Report | *Power BI, SQL, Excel*

[GitHub](#)

- Designed an **interactive Power BI dashboard** for visualizing **KPIs** and sales trends.
- Added **dynamic filters** and **drill-through reports** for quick business insights.
- Automated **data refresh** and created visuals highlighting **revenue opportunities**.
- Analyzed **10,000+ sales records** using **SQL** and **Excel** to identify regional performance gaps and support data-driven decisions.

SpendWise | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT*

[GitHub](#)

- Built a **full-stack expense tracking platform** to manage and visualize income and spending.
- Implemented **secure authentication** and **RESTful APIs** using **Node.js, Express.js, and JWT**.
- Designed an interactive dashboard with **charts** and **category-based analytics** for financial insights.

Technical Skills

Languages: Python, SQL, C++, Java

Frameworks & Libraries: PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, OpenCV, Hugging Face Transformers, LangChain, FastAPI, Flask

Technologies & Tools: Git, Linux, Docker, PostgreSQL, MongoDB, Streamlit, Jupyter Notebook, REST APIs

Concepts: Machine Learning, Deep Learning, Natural Language Processing (NLP), Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, AI Agents, Computer Vision, Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems

Social Engagements

Club Member at Electronics and IOT Club, Udaan Club, and other student clubs at IIT Dhanbad, contributing to events, workshops, and projects.

Volunteer at Concetto 25, IIT Dhanbad, assisting in organizing and managing competitions, workshops, and logistics.
