Education

IIT(ISM) Dhanbad

2022–2026

Bachelor of Technology in Electrical Engineering (CGPA: 8.09 / 10.00)

Dhanbad, Jharkhand

- **Relevant Coursework:** Data Structures and Algorithms (C++), Prob and Statistics, Object Oriented Programming(OOPs)

Experience

Samsung R&D Institute India, Bangalore

May 2025 – July 2025

Software Engineer Intern

Bangalore, Karnataka

- Implemented scheduled tasks using **cron** to automate backend file operations, improving efficiency and reducing manual intervention.
- Engineered **10+ Fast APIs** to query, aggregate, and filter data based on dynamic range inputs (such as date filters). Used **SQL queries** for efficient data retrieval and filtering, enabling smooth communication between frontend filters and the database.
- Built a dynamic interface using **React.js and Tailwind CSS** to manage nicknames via a select dropdown. Enabled users to add or remove nicknames, with real-time updates reflected in both the UI and the SQL database through backend integration.

Projects

Easy Journey | *HTML, CSS, JavaScript, Indian Railway's API, Open Trip Map API*

Github

- Built a website that simplifies trip planning by displaying available trains for the chosen travel date.
- Provides redirection links for booking, and enabling users to search for tourist attractions at selected destinations.

PrepGenie | *React.js, Tailwind CSS, Node.js, Express.js, FastAPI, MongoDB, JWT Authentication*

Github

- Created the AI-powered mock interview platform, building the Node.js/Express backend and integrating the React frontend with the FastAPI AI service to deliver a complete end-to-end interview experience.
- Implemented JWT-based authentication and authorization, securing user sessions and protected API routes across the application.
- Implemented browser-based camera and microphone recording using MediaRecorder, including live preview, recorded-answer playback, retake functionality, recording timer, and WebM video handling.

CreativeCanva | *HTML, CSS, JavaScript*

Github

- Developed a web-based drawing application with an interactive canvas, enabling users to create and save drawings.
- Enabled users to save their drawings as image files using JavaScript.

Technical Skills

Languages: C, C++, JavaScript

Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI, Tailwind CSS

Databases: SQL, MongoDB

Core CS: Data Structures & Algorithms, OOP, Operating Systems, DBMS

Tools & Technologies: Git, GitHub, Postman, REST APIs

Programming skills: LeetCode: 500+ problems GeeksforGeeks: 100+ problems Codeforces: 500+ problems

CodeChef:250+ problems

Achievements & Social Engagement

- Achieved **Reliance Scholar** status for outstanding academic performance, ranking in the top 1 percent of the cohort.
- **AIR 7686** in JEE Advanced 2022.
- Excelled in competitive programming, reaching a peak **Codeforces rating of 1383** and a peak **Leetcode rating of 1836**, resolving complex logical problems.
- **Organizer:**Parakram,Sports fest of IIT(ISM) Dhanbad .
- **Managed and Coordinated** numerous trips for the college Jain Society.
